## flexible solutions for your business needs

TechnoPlanet consulting provides a complete end-to-end solution.

#### CUSTOM SOLUTIONS

TechnoPlanet would provide the best available expert assistance as required on a time and materials or other standard consulting contract basis. To manage all the Business risk. TechnoPlanet will assume responsibility for projects as part of an overall Custom Solutions assistance program

#### WEB SOLUTIONS

We are totally business-focused, so we know how importance of your web presence, whether it is commercial or not-for-profit. Our experience has taught us that great websites do not happen by chance — they are the result of great design, built on a solid foundation. That foundation is in-depth understanding of everything. We apply a broad-based approach to site design that covers e Business strategy, user-centered design, usability and accessibility, search engine optimization, programming and project management. Bringing these diverse services together ensures that we deliver websites that meet your objectives by providing an exceptional and memorable experience

#### EBUSINESS SOLUTIONS

We recognize the change of pace in technology and the business environment. In this environment, we understand the significance for time to market and at the same time maintaining quality. We strive hard to realize these objectives. We believe quality assurance does not come at the end but starts at the inception and continues throughout. It comes part of our everyday process. For all our projects, we make sure our customer feels that we are an extension of their e-business facility. We be with our clients throughout the life cycle of the project and thereafter.

#### APPLICATION MANAGEMENT

Application Management Services typically involves close participation in the IT strategy of a customer's organization; we adjust the manner in which we deliver these services to meet the specific needs of each customer. For example, if the customer's business requires fast delivery of a mission-critical application update, we will combine our on-site professionals, who have knowledge of the customer's business processes and applications, together with our global infrastructure to deliver around-the-clock resources. If the customer's need is for cost reduction, we may increase the portion of work performed at our Development Center, which has significantly lower costs.
